Mac 101

Apple's Mac computers are quickly gaining popularity in businesses and households everywhere. If you have a friend, family member, or neighbor with a Mac — or perhaps you're the proud new owner of a Mac product yourself — let us get you oriented through this two-hour introductory class. In addition to navigating your way around the desktop, we'll show you how to personalize your Apple laptop or desktop, use the basics of the new Mountain Lion operating system, and explore the helpful and fun features unique to the Mac. This is an instructional class and is not hands-on, but please feel free to bring your own MacBook Air or MacBook Pro so we can answer any questions you may have.
